

# Quality Policy

Korvest Ltd's objective is to be regarded as the premium provider and first choice supplier of cable and pipe support systems, hydraulic and electric access systems for mobile equipment and hydraulic and pneumatic tools, and hot dip galvanising.

Through a relentless commitment for continual improvement we strive to provide high quality, cost effective product with solutions that exceed customer expectations.

Each division within Korvest is committed to building an organisation that is safe and globally competitive.

We are committed to an environment that is both listening and responsive, and which acknowledges both team and individual performance, whilst providing a framework to develop, support and encourage people.

**Korvest's Quality policy embraces the following key principles in line with ISO9001:2015 requirements:**

1. Systems and processes will be prevention based to ensure more effective decision making
2. The satisfaction of customers both internal and external shall be the primary focus of any quality management activities
3. Suppliers are integral to the quality process and company staff shall work closely with them to meet customer needs
4. Staff shall be encouraged and empowered to participate in quality improvement activities and tasks
5. All staff shall have individual responsibilities for understanding this quality policy and applying it in the performance of their tasks
6. Company management is fully committed to this quality policy through active participation in quality improvement activities and leadership by example

Our quality vision and mission is understood by the organisation as a whole as we strive to build an organisation that is sustainable and which provides long term stability for our employees and shareholders alike.
